

ORBS

Participating as a Delegator

by sending 0.07 ORBS

As an ORBS token holder, it is your responsibility to participate in the Orbs Universe by delegating your voting power to a Guardian you trust. This contributes to the network security by making sure a trustworthy group of validators is running the network.

Delegation takes place by making a simple Ethereum transaction using a standard Ethereum wallet. Delegation only needs to be performed once and remains valid unless modified to a different Guardian.

Important

When delegating, you are not sending all of your ORBS tokens to the Guardian. Your tokens always remain in your ERC20 wallet.

The delegation transaction is a one time transfer of exactly 0.07 ORBS to the Guardian.

Reward

If you choose a Guardian as your representative, you will be entitled to token rewards every election the Guardian votes on your behalf. Rewards are given in proportion to your balance of ORBS tokens during every election (few days).

To receive the rewards, you must make sure your ORBS tokens remain in your ERC20 wallet address and not transferred to a 3rd-party service like an exchange.

Requirements

- In order to participate, you need to have at least 10,000 ORBS under the same Ethereum account you use for delegation.
- Ether balance in your Ethereum account for gas payment for the delegation transaction.

Disclaimer

This tutorial describes how to delegate by transfer of 0.07 ORBS tokens. Please use the wallet that you usually work with. MyEtherWallet is used for illustration purposes only.

Steps

1. Choose “ORBS” for the ERC20 token Type.
2. Specify transfer amount of exactly 0.07 ORBS.

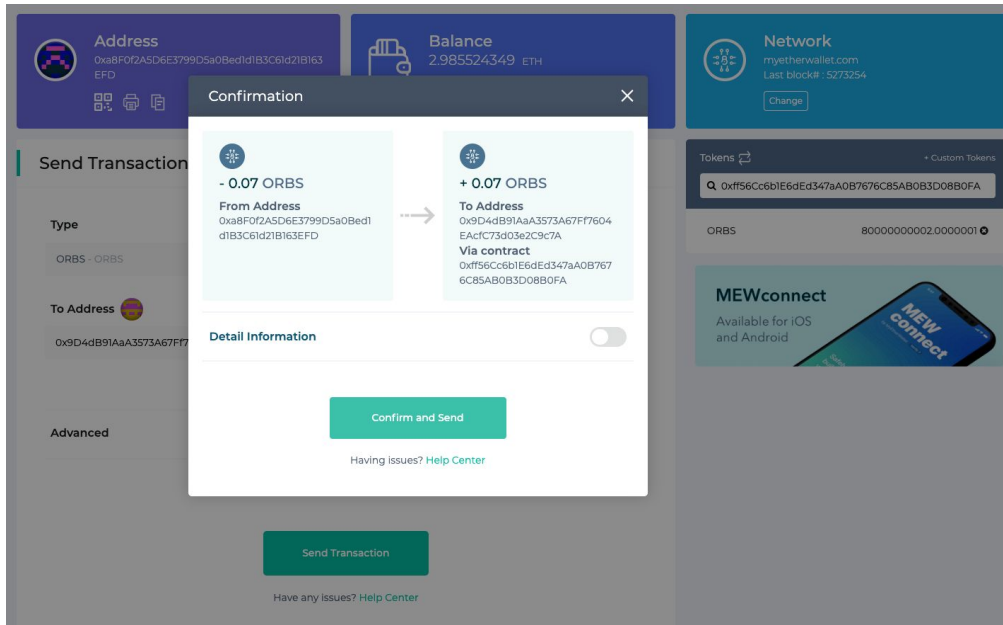

The screenshot displays the MyEtherWallet interface for sending a transaction. At the top, there are three summary cards: 'Address' (0xa8F02A5D6E3799D5a0Bed1d1B3C61d21B163), 'Balance' (2.985524349 ETH), and 'Network' (myetherwallet.com). The main section is titled 'Send Transaction' and contains a form with the following fields:

- Type:** ORBS - ORBS (dropdown menu)
- Amount:** 0.07 (input field)
- To Address:** 0x9D4dB91AaA3573A67F7604EAcfC73d03e2C9c7A (input field)
- Advanced:** Data & Gas Limit (toggle switch)

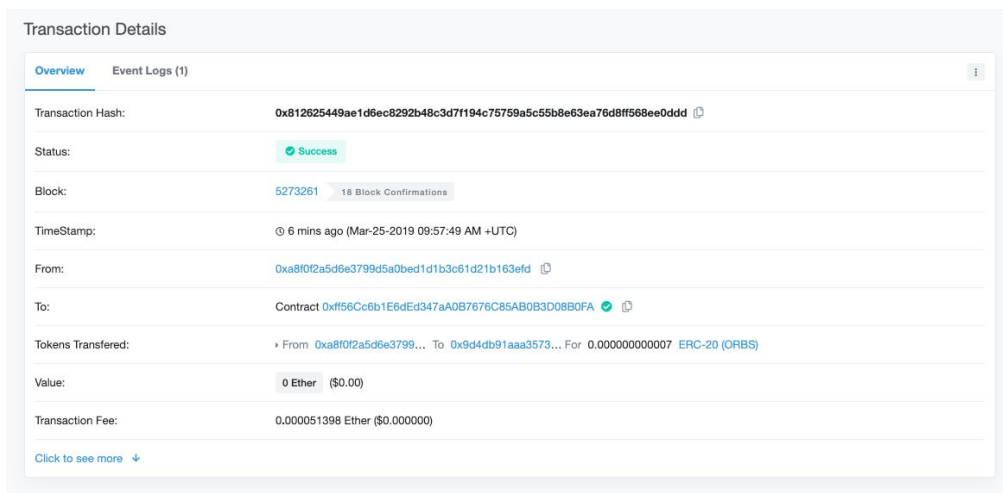

A green 'Send Transaction' button is located at the bottom of the form. To the right of the form, there is a 'Tokens' section showing the selected token 'ORBS' with a balance of 80000000002.0000001. Below this is an advertisement for 'MEWconnect' available for iOS and Android.

3. Specify the address of the Guardian as the recipient.
4. Click **“Send Transaction”** and review the details.

5. Verify the status of the transaction and make sure it confirms.

Changing Guardians

Always select a Guardian you trust. You can find the list of registered Guardians with their names and websites at: <https://orbs-network.github.io/voting/delegator>

Want to delegate manually to another address? Click [here](#).

Delegation Status: Your vote is going to '0xa8F0f2A5D6E3799D5a0Bed1d1B3C61d21B163EFD'.

It is enough to perform delegation once. If you want to change your Guardian, simply delegate again to the new Guardian. The last delegation counts.
